UCM2 — UCM2 TASK 2: MULTIPAGE WEBSITE

FRONT-END WEB DEVELOPMENT — D277

PRFA — UCM2

Preparation   Task Overview   Submissions   **Evaluation Report**

EVALUATION REPORT — ATTEMPT 2 — REVISION NEEDED

Overall Evaluator Comments

EVALUATOR COMMENTS

You have done a fair job of developing a website with a repository for a site about Nevada. You have correctly used a Contact Us form for a site about Nevada. You have accurately used semantics such as nav, header, section, and aside for a site about Nevada. Please see the below comments for necessary revisions.

A. GITLAB REPOSITORY

Competent The subgroup and project are created in GitLab, and *all* the given actions are completed correctly.

There are no comments for this aspect.

B1. HOME PAGE

Competent The submission includes a home page for the website that introduces the chosen state.

There are no comments for this aspect.

B2a. CAPITAL CITY PAGE

Approaching Competence The submission includes a page presenting information about the capital city of the chosen state, but it does not include *each* given bullet point.

The website includes information about the Capital city of Nevada. This submission is not fully developed as the average income amount is not present for the capital city.

B2b. NONCAPITAL CITY PAGES

Approaching Competence The submission only includes 1 noncapital city page. Or the submission includes 2 noncapital city pages, but they do not *both* contain *each* given bullet point.

The website has information about non-capital cities in Nevada. This submission is not fully developed as the average income amount for each city is not present.

B3. WEB FORM PAGE ELEMENTS

Competent The submission includes a web form page that contains *each* given element.

There are no comments for this aspect.

B4. PAGE ELEMENTS

Approaching Competence The submission includes *each* given element in only *some* of the pages from part A.

Elements have been submitted for the site about Nevada. This submission is not fully developed as the city pages are missing the required images.

C1. EXTERNAL WEBSITE ELEMENT

Competent The submission includes a link that opens an external website in a new window or tab using the target attribute. The submission includes suitable markup, and the HTML code is well-formed.

There are no comments for this aspect.

C2. ORDERED LIST ELEMENT

Competent The submission includes an HTML-coded ordered list with at least 3 list items. The list uses suitable markup, and the HTML code is well-formed.

There are no comments for this aspect.

C3. UNORDERED LIST ELEMENT

Competent The submission includes an HTML-coded unordered list with at least 3 list items. The list uses suitable markup, and the HTML is well-formed.

There are no comments for this aspect.

C4. TABLE ELEMENT

Competent The submission includes an HTML-coded table to organize content. The table has *at least* 3 columns and *at least* 3 rows, and the HTML is well-formed.

There are no comments for this aspect.

D1. FONT-FAMILY DECLARATION

Competent The external CSS stylesheet includes *1 font-family declaration that is used* at least *1 time in the HTML files.*

There are no comments for this aspect.

D2. ROLLOVER EFFECT

Competent The external CSS stylesheet includes a well-formed :hover pseudo-class that creates a rollover effect for the navigation links.

There are no comments for this aspect.

D3. FLOAT PROPERTY ENHANCEMENT

Approaching Competence The external CSS stylesheet includes a float property, but the float property does not position 1 HTML element to the side of another within the website. Or the float property is not well-formed.

EVALUATOR COMMENTS: ATTEMPT 2

The web application uses CSS stylsheet for pages about Nevada. This submission is not fully developed, as when commenting out float property, there is no effect.

D4. ABSOLUTE POSITIONING ENHANCEMENT

Competent The external CSS stylesheet includes absolute positioning in 1 area of the web page that changes the position of an element and is well-formed.

There are no comments for this aspect.

D5. RELATIVE POSITIONING ENHANCEMENT

Competent The external CSS stylesheet includes relative positioning in 1 area of the web page that changes the position of an element and is well-formed.

There are no comments for this aspect.

D6. SELECTOR ENHANCEMENT

Competent The submission includes 1 of *each* type of CSS selector, and all selectors are well-formed and function properly. The submission meets *all* the given bullet points.

There are no comments for this aspect.

E. JAVASCRIPT CODE

Competent The submission includes JavaScript code in the web form from part A3 that produces an alert box and correctly verifies that the email fields match.

There are no comments for this aspect.

F. UPDATED LAYOUT IMAGES

Approaching Competence The submission includes only 1 image. Or 2 images are included, but they do not capture the updates made, if applicable.

EVALUATOR COMMENTS: ATTEMPT 2

Images have been submitted with the website about Nevada. This submission is not fully developed as the images of updated layouts do not contain the required sematic elements.

F1. JUSTIFICATION FOR UPDATES

Approaching Competence The submission includes a justification, but it does not focus on technical limitations. Or the submission does not include an adequate justification for *all* changes made in Task 2 to the layouts from Task 1.

EVALUATOR COMMENTS: ATTEMPT 2

The website has been developed with attachments for a site about Nevada. This submission is not fully developed as the justification is missing.

G. STUDENT PROJECT SUBMISSION FORM

Approaching Competence The submission includes the attached "Student Project Submission Form," but the form is incomplete.

EVALUATOR COMMENTS: ATTEMPT 2

The website has been submitted with attachments for a site about Nevada. This submission has not been fully developed as the Student Project submission form is missing.

H. SOURCES

> **Competent** The submission includes in-text citations for sources that are properly quoted, paraphrased, or summarized and a reference list that accurately identifies the author, date, title, and source location as available.

There are no comments for this aspect.

I. PROFESSIONAL COMMUNICATION

> **Competent** Content reflects attention to detail, is organized, and focuses on the main ideas as prescribed in the task or chosen by the candidate. Terminology is pertinent, is used correctly, and effectively conveys the intended meaning. Mechanics, usage, and grammar promote accurate interpretation and understanding.

There are no comments for this aspect.
